Back from a brief vacation in Tahiti, our little round friend returns to find the latest craze . . . PAC-MANIA!!! He's back in action . . . but with a new beat, BOUNCE power! Ready for a new generation of Pac-Man players, he can't wait for the chance to show off his new aerial maneuvers to the crowd! The "boss" ghost Clyde has recruited the talents of two new ghosts, Sue and Funky! Pac-Man must utilize his speed and cunning to outwit these annoying creeps. Only by doing so can he get on with his favorite hobby . . . eating!

A quick trip around the neighborhood is all it takes for Pac-Man to realize that there have been some changes made. Now there's Block Town, Pac-Man's Park, Sandbox Land and Jungly Steps. Armed with new BOUNCE power he is confident that food is a mere leap away. And if this is not enough, he also has SPECIAL ITEMS—special powers that award extra speed or double points!

Though he has a real challenge ahead of himself, Pac-Man is glad to be back in action again. A new colorful 3-D playfield with some real snappy upbeat music reminds Pac-Man that Pacland is a pretty nice place to live!
